MAKING MORE OF YOUR HOME

Better by Design

A highly thermally efficient aluminium flat roof orangery combining simplicity, performance and flexibility.

“The ideal modern solution for new build extensions or Edwardian style conservatories”

A SupaLite Orangery is the most modern and efficient way for you to enjoy both the indoors and outdoors whilst retaining light and warmth.

Perfect for retro-fit or new-build, the new orangery comes with all the outstanding features the industry has come to expect from SupaLite, aesthetic appeal, superb technical capabilities, excellent thermal efficiency and of course with ease of installation.

The arrival the orangery roof is a natural progression for us building on the incredible success of our SupaLite tiled roof range.

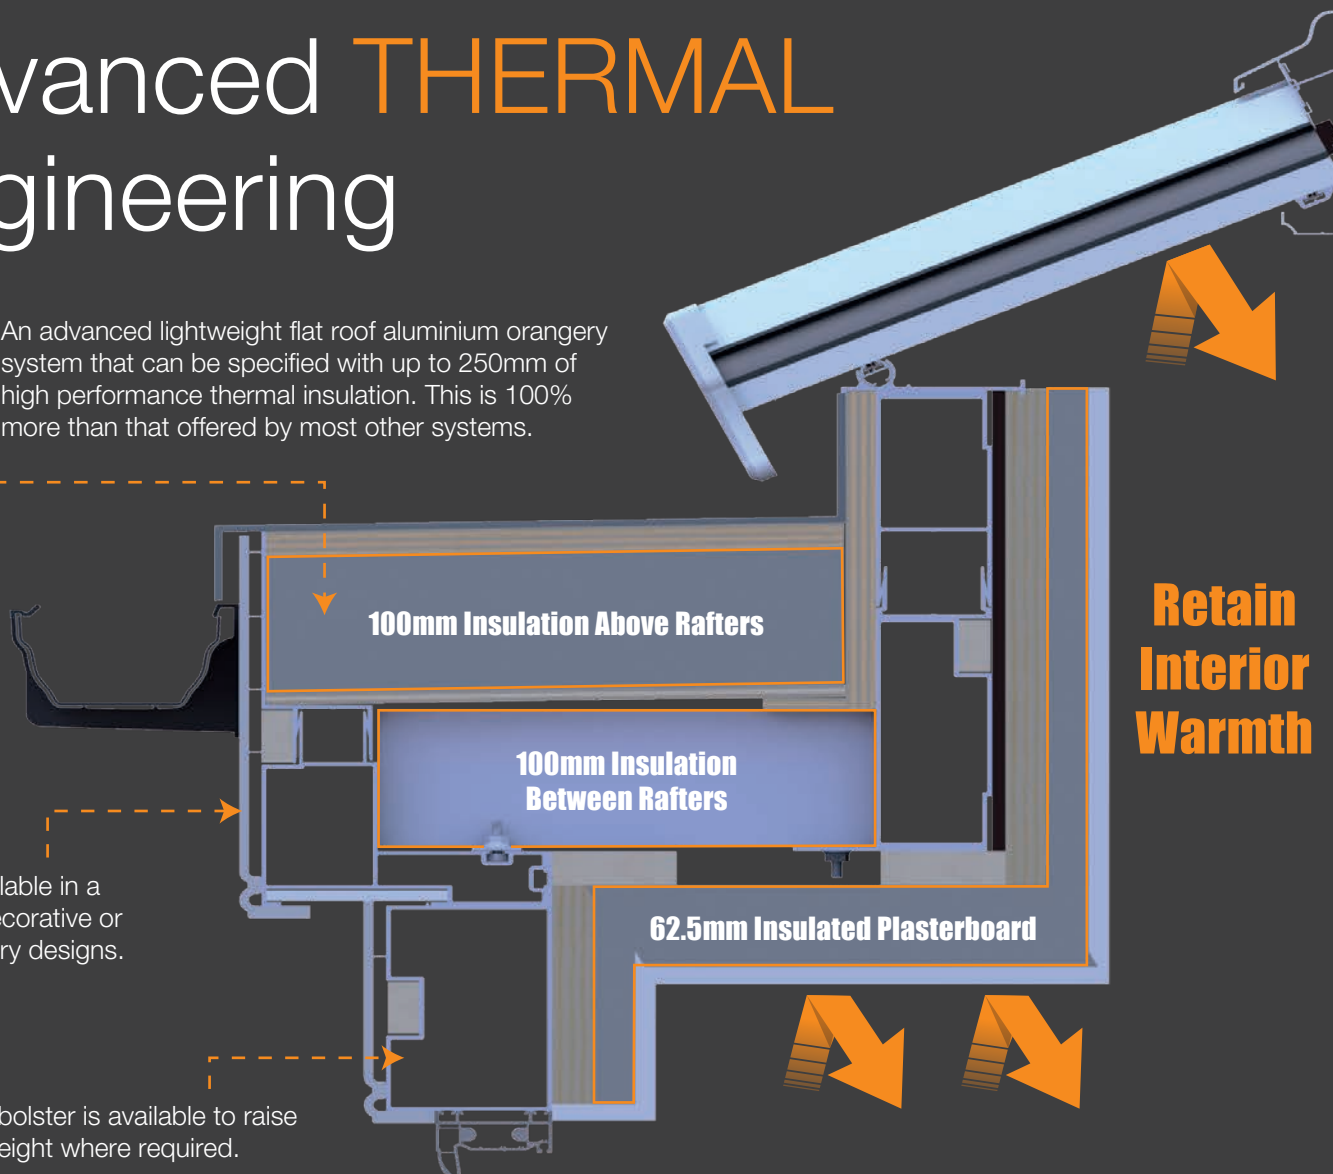

Advanced THERMAL Engineering

100% more

An advanced lightweight flat roof aluminium orangery system that can be specified with up to 250mm of high performance thermal insulation. This is 100% more than that offered by most other systems.

Fascias available in a choice of decorative or contemporary designs.

An optional bolster is available to raise the ceiling height where required.

Benefits

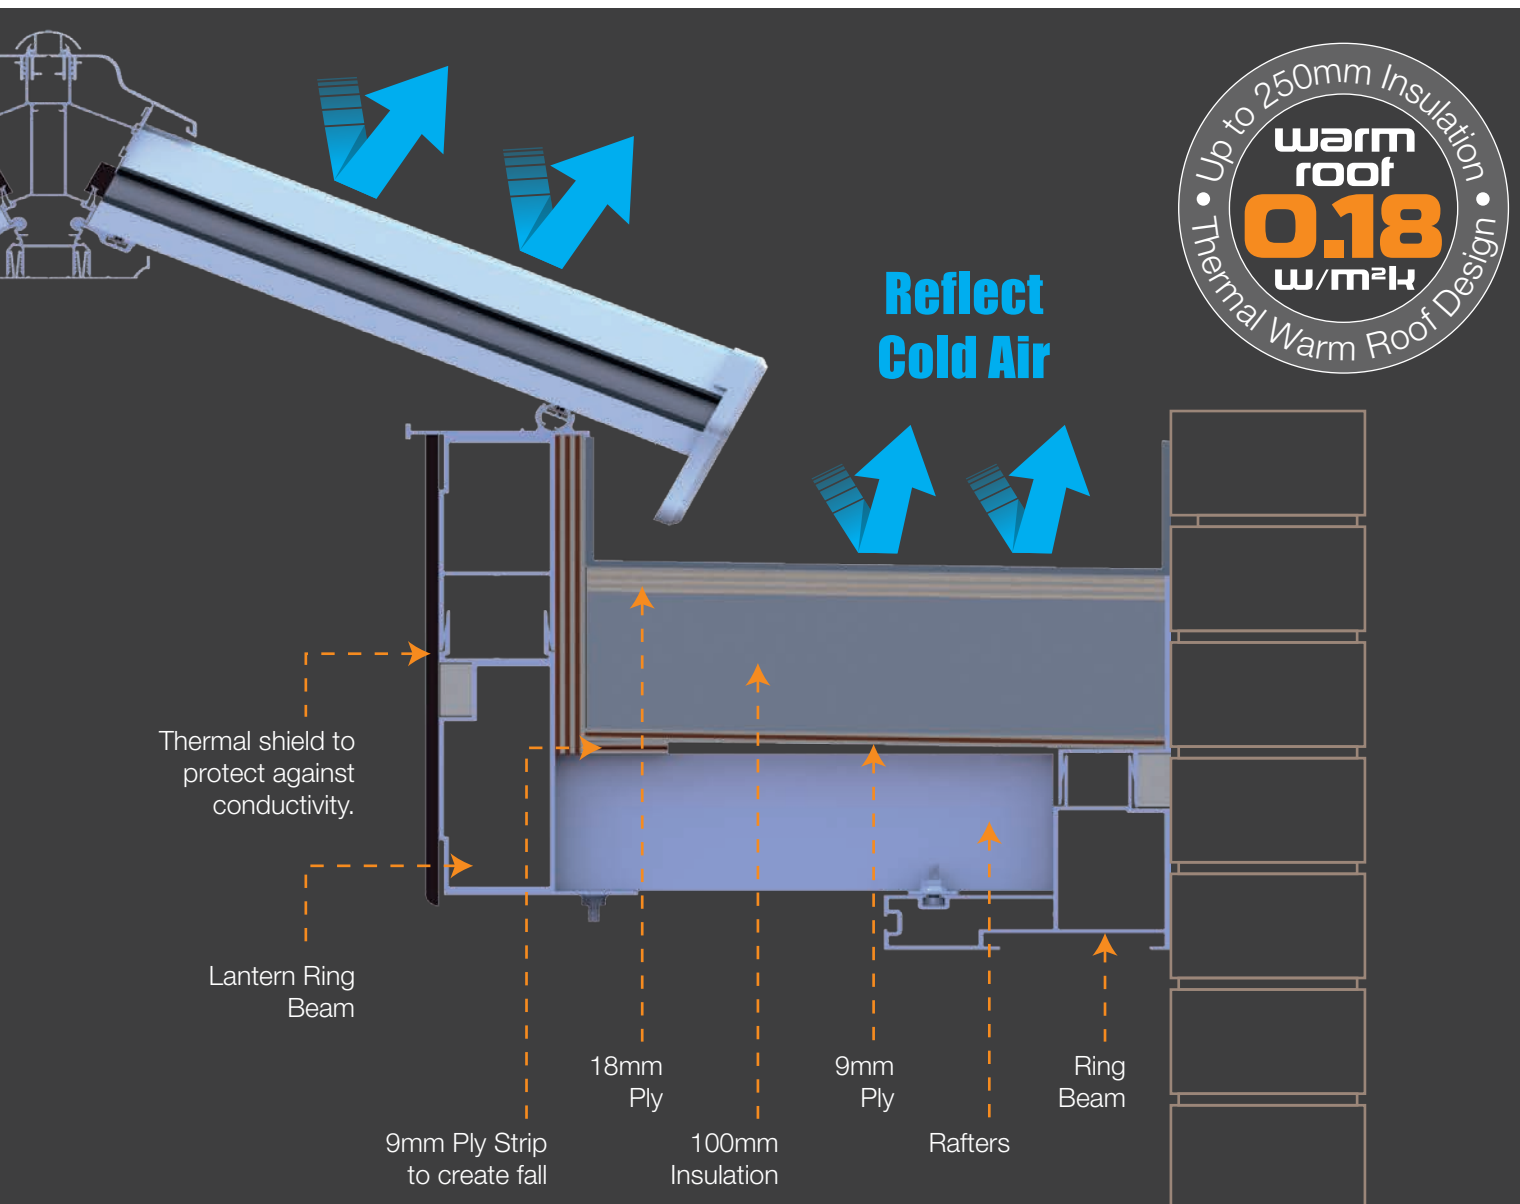

Delivered pre-cut ready for immediate assembly on-site.

“With a range of options, perfect for today's vision of modern living”

One of the most advanced flat roof orangery systems available, designed specifically for ease of install, longevity and performance.

Coverings

Your roof will be installed ready to accept the roof covering of your choice. Your installer will be able to advise and supply the best covering for your roof.

Lantern

High performance SkyVista lantern designs available in sizes up to 3m x 6m, ideal for fresh, bright, modern interiors.

ALSO AVAILABLE THE SUPALITE PITCHED ROOF ORANGERY

The SupaLite Roof is the only roof available with a unique pitched roof orangery. Enjoy the extra space with a vaulted ceiling whilst retaining the light from a lantern.
